

REMARKS

In accordance with the foregoing, dependent claims 7, 8, and 9 and respective counter-part claims 13, 14, and 15 have been amended to correct typographical errors therein, generally directed to proper recitations of red (versus green) and green (versus red) phosphors. No new matter is presented.

The changes in claims 7, 8, and 9 and in claims 14 and 15 are fully supported in the disclosure of the application as filed and, hence, present no new matter.

As to claim 7, see Figs. 12 and 14 and the related description in the specification, e.g., paragraphs 18 and 21.

As to claims 8 and 14, see Fig. 15 and the related description in the specification, paragraph 22.

As to claims 9 and 15, see Figs. 14 and 18 and the related description in the specification, paragraphs 14 and 25.

Furthermore, no new issues are presented since claims 7, 8, and 9 commonly depend from allowed independent claim 4 and claims 14 and 15 commonly depend from allowed independent claim 10 and hence are allowable for at least the same reasons as their respective independent claims.

This Amendment could not have earlier been presented since the need for the changes only was recognized when reviewing the allowed claims in view of the Notice of Allowance herein.

Accordingly, approval and entry of the foregoing amendments are respectfully requested.

If there are any additional fees associated with filing of this Preliminary Amendment, please charge the same to our Deposit Account No. 19-3935.

Respectfully submitted,

STAAS & HALSEY LLP
